DEV MISTRY

Full Stack Web & App Developer | AI/ML · LLM & AI Agent Developer

Bardoli, Gujarat • +91 9408836030 • devjangid788@gmail.com • GitHub Profile • LinkedIn Profile • Portfolio

PROFESSIONAL SUMMARY

Full Stack Web & App Developer at Tupple Apps with hands-on experience building AI-powered SaaS platforms, enterprise management systems and e-commerce applications using React.js, Next.js, Node.js, Express.js, PostgreSQL and MongoDB. Developed production-ready applications including an AI Interview Preparation Platform, an AI Customer Support SaaS and an AI-powered E-Commerce Platform with Razorpay. Strong expertise in REST APIs, JWT Authentication, RBAC, LLM integration (OpenAI, Gemini, OpenRouter, Claude), AI agents, n8n automation and cloud deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Python, SQL, HTML5, CSS3 (Familiar: Java, C, C++)

Frontend & Mobile: React.js, Next.js, React Native, Expo, Redux Toolkit, Context API, Tailwind CSS, SASS, Bootstrap, Framer Motion

Backend: Node.js, Express.js, NestJS, Flask, REST APIs, JWT Authentication, Multer, Middleware Development

Database: MongoDB, Mongoose, PostgreSQL, MySQL, Firebase, Redis, Prisma, TypeORM

AI & Generative AI: OpenAI API, Google Gemini API, Anthropic Claude, Groq, OpenRouter, Prompt Engineering, LLM Integration, RAG, Vector Search (Qdrant), LangChain

AI Agents & Automation: AI Agents, Claude Code, n8n, Multi-step AI Workflows, Gmail, Google Sheets & Telegram Integrations

Payment Gateway: Razorpay

Deployment & Tools: Vercel, Render, Firebase, MongoDB Atlas, Docker, AWS, GitHub Actions, Git, GitHub, Postman, Selenium, VS Code

Computer Science: Data Structures & Algorithms, OOP, DBMS, SDLC

Additional: SaaS Architecture, Role-Based Access Control (RBAC), Razorpay Integration, REST API Development, Cloud Deployment

PROFESSIONAL EXPERIENCE

Full Stack Developer Current — *Aug 2026 – Present*

Tupple Apps — Surat, Gujarat, India

- Full Stack Developer working with React.js, Next.js, Node.js, Express.js, PostgreSQL and MongoDB.
- Building responsive web applications and REST APIs with end-to-end database integration.
- Delivering scalable software solutions using Git and GitHub version control workflows.

Skills: React.js · Next.js · Node.js · Express.js · PostgreSQL · MongoDB · REST APIs · Git · GitHub

Full Stack Developer — *Nov 2025 – Apr 2026*

UpGrowth Infotech — Bardoli, Gujarat, India · Part-time · On-site

- Developed responsive full-stack web applications using React.js, Node.js, Express.js and MongoDB.
- Built REST APIs and implemented authentication using JWT.
- Worked on database design, CRUD operations and API integrations.
- Collaborated on real-world projects following industry best practices.
- Improved application performance and user experience through optimised frontend and backend development.

Skills: React.js · Node.js · Express.js · MongoDB · JWT · REST APIs · Git · GitHub

FEATURED PROJECT

AI InterviewIQ – AI Interview Preparation Platform

React.js • Redux Toolkit • Node.js • Express.js • MongoDB • OpenAI • Gemini • OpenRouter

GitHub Repository • Live Demo

- AI-powered mock interview platform simulating real technical interviews for students and developers.
- Implemented resume upload (Multer) and AI resume analysis to personalise every interview session.
- Integrated LLMs via OpenAI, Gemini and OpenRouter APIs to generate role-based interview questions.
- Built AI answer evaluation with an interview scoring system and personalised feedback.
- Developed user dashboards for interview history, resume analysis reports and performance tracking.
- Implemented JWT Authentication with protected routes and user profile management.

OTHER PROJECTS

AI MERN E-Commerce Platform
React.js • Redux Toolkit • Node.js • Express.js • MongoDB • Firebase • Razorpay
GitHub Repository • Live Demo • Admin Panel

- Developed a full-stack AI-powered e-commerce application with product, cart, wishlist and order management.
- Integrated the Razorpay payment gateway for secure online transactions and order workflows.
- Implemented secure authentication and role-based access control for customers and administrators.
- Built an admin dashboard for products, users, orders, inventory and sales analytics.
- Added AI product recommendations, an AI shopping assistant and smart product search.

AI Customer Support SaaS – AI Chatbot Platform
Next.js • TypeScript • Tailwind CSS • Node.js • Express.js • MongoDB • ScaleKit • OpenAI • Gemini
GitHub Repository • Live Demo

- Built a SaaS platform that lets businesses create, customise and embed AI support chatbots on their websites.
- Implemented live chatbot preview, context-aware AI responses and AI prompt management.
- Developed a SaaS dashboard with analytics, user management and usage monitoring.
- Secured the platform with ScaleKit Authentication and a JWT token system.

TaskFlow – Employee Task Management Platform
React.js • Tailwind CSS • Node.js • Express.js • MongoDB • JWT Authentication
GitHub Repository • Live Demo

- Developed a task management platform with task assignment workflows, status updates and deadline tracking.
- Built role-based employee and admin dashboards with productivity monitoring and analytics.
- Implemented secure JWT authentication and authorisation for protected routes.

Employee Management System
React.js • Tailwind CSS • Node.js • Express.js • MongoDB • JWT Authentication
GitHub Repository • Live Demo

- Built a workforce management platform with employee CRUD, task assignment and performance analytics.
- Designed REST APIs with optimised MongoDB queries and role-based dashboards for admins and employees.

DevNova AI – AI Voice Agent
React.js • Vite • Tailwind CSS • Firebase • Node.js • Express.js • MongoDB • JWT
GitHub Repository

- AI voice agent application in active development with a React and Vite frontend and Firebase integration.
- Built an Express and MongoDB backend secured with JWT cookie-based authentication.

EDUCATION

Master of Computer Applications (MCA) *2026 – 2028*
Vidyabharti Trust College of MCA · Pursuing
Gujarat Technological University (GTU)

Bachelor of Computer Applications (BCA) *2023 – 2026*
Vidyabharti Trust College of Business, Computer Science and Research, Umrakh
Veer Narmad South Gujarat University (VNSGU)
CGPA: 7.77 / 10 | Final SGPA: 8.18 | Percentage: 77.70%
First Class with Distinction

TRAINING & CERTIFICATIONS

- **Full Stack Web Development Training** — Byte Touching Classes: built real-world projects with React.js, Node.js, Express.js, MongoDB and REST APIs.
- **Internship Completion Certificate** — UpGrowth Infotech (Nov 2025 – Jan 2026).

ACHIEVEMENTS

- Built and deployed 5+ production-ready MERN and AI-powered applications.
- Developed an AI-powered E-Commerce Platform with Razorpay payment integration.
- Integrated Generative AI (OpenAI, OpenRouter, Gemini) into real-world SaaS applications.
- Deployed production applications using Vercel, Render, Firebase and MongoDB Atlas.
